

ERRATA

No Volume 5, número 3, no artigo de Kane R.P., "Prediction of annual rainfall at Fortaleza, CE, Brazil in recent years" foram detectados alguns erros do autor, o qual solicitou a inclusão do seguinte texto:

In the publication Kane (1987), there are some computational errors. The correlation coefficients shown in the Figures therein are actually **squares** of the correlation coefficients. The correct correlation coefficients (square roots of these numbers) are as given below:

Place	As it is	Should read as
P. 56, col. 1, line 9 Also Figure 3	correlation coefficient + 0.59	correlation coefficient + 0.77
P. 59, col. 1, line 19 Also Figure 4	correlation coefficient + 0.49	correlation coefficient + 0.70
P. 59, col. 2, line 9 Also Figure 5	correlation coefficient + 0.37	correlation coefficient + 0.61
P. 59, col. 2, line 15 Also Figure 6	correlation coefficient + 0.23	correlation coefficient + 0.48

Any inconvenience of confusion caused due to these errors is greatly regretted.

There is a printing error in the title also. VEARS should read YEARS.
